2022 CATALOG

PEYTON MANNING

BRAND AMBASSADOR AND STRATEGIC ADVISOR

Leading football back to the field just means more this year.

We're reuniting with our teammates, our coaches and support staffs, and our communities.

It's about getting back to what we know and love, back to the basics of what make our game so great - equipment fitting day, time together in the locker room, Friday Night Lights surrounded by fans, rivalry games, and the joy of victory and celebrating as a team.

For us at Riddell, we'll be back at a field near you. The Riddell team is here to support your program this season and beyond. We know it hasn't been easy lately, so we're excited to share that Riddell's Smarter Football give-back initiative will resume as we recognize your hard work both on and off the field. Because we know that your gear should keep up with your game.

And, after this long-awaited return to the field, we are sure to see memorable performances and new history written all season long. Football is back, and we couldn't be happier!

WE LEAD STRENGTHEN & GROW THE GAME

You coach, you organize, you play – you give your time to football. We're here to help you make the most of it.

Athletes play in different ways. Game Types help find the right fit for them. From Non-Contact to Limited Contact to Contact – it's all football. More ways to play give parents and kids more reasons to stay.

A NEW APPROACH FOR YOUTH FOOTBALL

The Football Development Model is designed to make the game safer by reducing contact and teaching the game based on an athlete's age, the skill they are learning, and game type. Learn more at usafootball.com/fdm

GRANTS FOR EQUIPMENT & MORE

The Grant Program helps organizations and teams operate their program or improve and enhance the quality of the athlete experience. USA Football is proud to work with partners like Riddell to make this happen. Learn more and apply for a grant at usafootball.com/grants

COACH EDUCATION & CERTIFICATION

Coaching young athletes can feel like a full-time job, and expectations couldn't be higher. We're here with training and tools to help you get the most out of your team and yourself, so step up to the standard and get certified. Learn more at usafootball.com/certification

REPRESENT YOUR TOWN AND YOUR COUNTRY

Get on the pathway to become your best. The first two levels help everyone build the basics and better their skills. The top is for those that prove they're among the best in the country. There's a custom path for all game types, sexes and ages. Learn more at usafootball.com/highperformance

LEAGUE STANDARDS & RECOGNITION

Youth leagues can earn recognition for their commitment to raising operational standards and providing a great football environment through USA Football's League Excellence Program. Leagues that raise the bar will earn tiered benefits to help them promote their organization. Learn more at usafootball.com/excellence

Visit usafootball.com to learn what we do for you and for the game.

VENDORS

Riddell can help with any of your program's needs and get you set up for your season. Contact your local rep to learn more about these brands.

TERMINOLOGY

PRECISION-FIT

A process that utilizes 3D scanning technology to craft a completely customized helmet for the individual player.

INSITE

InSite is a web-based data center that is simple to use and rich with information. Coaches may use data to identify opportunities to proactively influence player behavior through training techniques and practice plans to move their program and athletes forward.

INSITE PLAYER UNIT

An integrated five-zone sensor pad that monitors and records nearly every head impact that occurs.

DIAMOND TECHNOLOGY

Digitally designed, 3D printed, high performance, impact absorbent and tunable lattice helmet components.

PATENTED SIDE IMPACT PROTECTION

(PSIP) Proprietary technology included in all Riddell helmet models. Research-based mandible protection helps reduce the forces from side impacts. Technology feature consists of side shell extensions combined with side liner extensions.

THE FLEX SYSTEM

Flexibility engineered into the helmet's shell, face mask and face mask attachment system with hinge clips; reduces impact force transfer to the athlete.

COMPOSITE ENERGY MANAGEMENT

Strategic combination of padding materials inside of the helmet absorbs impact energy and retain their position and purpose over extended durations of play.

QUICK RELEASE™

Face mask attachment hardware, precision-milled from stainless steel, disengages with a simple press of a button.

TRU-CURVE LINER SYSTEM

Interior liner conforms to the shape of a player's head and fits the contours of the helmet shell (front pad, crown, back/side, occipital lock, face frames) for improved comfort and fit.

OCCIPITAL LOCK

Inflatable liner that, when inflated, cradles the athlete's occipital lobe improving the helmet's fit.

CAM • LOC™ RETENTION SYSTEM

A chin strap attachment system developed based on elite player feedback, designed for easy, efficient adjustments to help secure proper fit.

HS⁴ FACE MASK

High Strength Spring Stainless Steel; thinner and lighter, high performance face mask improves sightlines and field vision for the athlete.

AIR FIT LINER

Inflatable liner components used to make final sizing adjustments.

LIGHTWEIGHT TECHNOLOGY

Engineered face mask and shell designs reduce the overall weight, improving the balance and comfort of the helmet.

FLEXLINER

Flexible liner, designed to conform to various head shapes, providing comfort and helmet stability.

QUICK CHANGE LINER ATTACHMENT SYSTEM

Removable padding system with screw-in caps, designed for ease-of-use when performing helmet maintenance.

OVERLINER

Removable, moisture-resistant liner cover with antimicrobial properties built-in to protect the product. Provides comfort and stability.

FITTED LINER

Fixed-sized helmet liner system provides comfort and protection without inflation.

BUILT-IN T-NUT WRENCH

Molded stops in the helmet shell allow for easy removal of screws without the use of a wrench or pliers.

HELMET FITTING GUIDE

Riddell
PROTECT AND PERFORM

- Wrap a cloth measuring tape around the circumference of head
- Measure with tape approximately 1" above the player's eyebrows
- Record measurement
- Use the Riddell® circumference chart below to select proper helmet size
 - If measurement falls between helmet sizes, choose the smaller size

PUTTING ON HELMET:

- Hold helmet with thumbs over bottom of jaw pads
- Place index fingers into ear holes
- Pull helmet down into position

TAKING OFF HELMET:

- Loosen lower chin straps
- Place index fingers into ear holes
- Press thumbs into bottom of jaw pads
- Lift helmet up and off the head position

- Adjust inflatable pads using a Riddell inflation bulb and a well-lubricated Riddell inflation needle
- Insert needle
- Pump Riddell inflation bulb to achieve proper height
- Remove needle
- Front of helmet should be approximately 1" above the player's eyebrows (see **HELMET POSITION** diagram below for reference)

* Use glycerin to lubricate needle

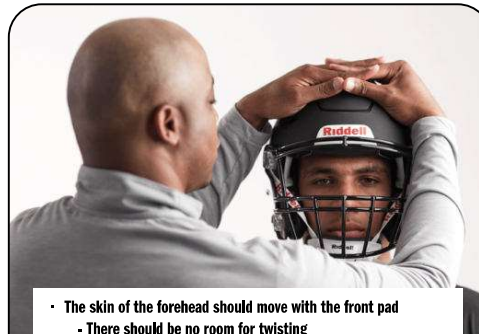

- Inflate for snug, comfortable fit front-to-back and side-to-side

* Use glycerin to lubricate needle

- Jaw pads should feel firm against the face
- Insert needle into valve at exterior jaw flap
- Inflate jaw pad
- If non-inflatable jaw pads feel loose, change to a thicker size
- If non-inflatable jaw pads feel tight, change to a thinner size

* Use glycerin to lubricate needle

- The skin of the forehead should move with the front pad
 - There should be no room for twisting
- If helmet slides easily over the forehead, inflate helmet liners or try a smaller helmet
- Ensure a proper fit:
 - Interlock hands on top of helmet and press down
 - Player should feel pressure on crown of head, not brow
 - Pressure on brow indicates improper fit
 - Front of helmet should be approximately 1" above the eyebrows
- To avoid injury or discomfort, never wear a helmet positioned too high or too low

TO ADJUST CHIN STRAPS:

- The player should hold the chin cup in place against the chin
 - Cup should be centered and snug over chin
 - Adjust chin straps until cup is firmly pressed against chin
- When secured, helmet should feel comfortable and snug
- Chin straps are available in multiple sizes & styles

PRECISION-FIT

Riddell® PRECISION-FIT

Riddell Precision-Fit is a process that utilizes 3D scanning technology to craft a helmet personalized for the individual player.

The research-based innovations that informed the Riddell SpeedFlex™ are combined with a first of its kind interior fit and protection system.

PROTECTIVE INNOVATION DELIVERED

Precision-Fit technology builds on a foundation of game-changing protective features introduced by Riddell over the last decade. Those advancements led us to today. The next step in protective innovation was to dramatically change the way we think about football helmets.

3D IMAGING TECHNOLOGY

Verifyt 3-dimensional imaging technology captures surfaces accurate up to 0.5 mm

CUSTOM TOOLING/MOLDING

One-of-a-kind production molds are developed for each athlete

PERSONALIZED PROTECTION

Energy-managing materials are contoured for an athlete's unique head size and shape, replacing traditional fitting components

PERSONALIZED PROTECTION IN THREE DIMENSIONS

Energy-managing materials are contoured precisely to the athlete's head, replacing traditional fitting components.

IMPROVED SIGHTLINES AND MAXIMIZED FIELD VISION

The athlete chooses where the helmet is positioned.

PERSONALIZED COMFORT

Padding that precisely fits each athlete's unique head size and shape.

CUSTOMIZED HELMET TRACKING

Contoured padding engineered to move when the athlete moves.

SpeedFlex Precision	R41156

This helmet is certified to meet the NOCSAE Standard.

FROM THE SIDELINES

“The comfort, fit and protection of Riddell's SpeedFlex Precision is unmatched and our kids loved them, allowing them to perform on game day.”

Tim Thornton - Head Coach
 Peoria High School
 Peoria, IL

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in CONCUSSION-BRAIN INJURY which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received MEDICAL CLEARANCE. Ignoring this warning may lead to another and more serious or fatal brain injury.

DIAMOND TECHNOLOGY

Riddell® DIAMOND TECHNOLOGY

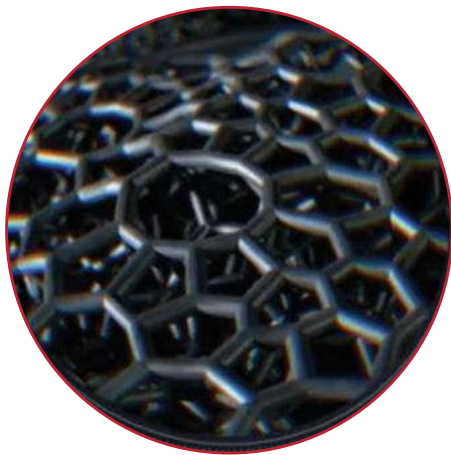

A NEW HELMET SYSTEM THAT RAISES THE BENCHMARK FOR ATHLETE PERFORMANCE

By partnering with digital manufacturing company, Carbon®, to develop, manufacture and deliver next-gen innovative head protection, Riddell becomes one of the world's first companies to utilize digital manufacturing and production at mass scale. The partnership makes Riddell the first to bring customized, digital design innovation to head protection.

Riddell® | Carbon

DIGITAL MANUFACTURING PARTNERSHIP

Leveraging the proprietary Carbon Digital Light Synthesis™ technology, advanced software design tools and innovative materials, Riddell football helmets will feature Diamond technology – digitally designed, 3D printed, high performance, impact absorbent and tunable lattice components – cutting-edge innovation that underscores a commitment to player protection.

GAME CHANGING PERFORMANCE

Riddell Diamond helmets are built differently with a distinct interior structure that is digitally designed and tuned, bringing to football helmets a truly new way of imagining athlete protection.

DESIGNING THE FUTURE

Diamond technology offers Riddell's design engineers new freedom to innovate and imagine the possibilities that exist when design, manufacturing and engineering are fused into one.

TUNABLE PROTECTION

The 3D printed lattice liner allows for impact attenuating structures to be locally tuned while maintaining existing pad shape and feel.

PERSONALIZED PROTECTION IN THREE DIMENSIONS

Energy-managing materials are contoured precisely to the athlete's head, replacing traditional fitting components.

IMPROVED SIGHTLINES AND MAXIMIZED FIELD VISION

The athlete chooses where the helmet is positioned.

PERSONALIZED COMFORT

Padding that precisely fits each athlete's unique head size and shape.

CUSTOMIZED HELMET TRACKING

Contoured padding engineered to move when the athlete moves.

INSITE ANALYTICS

HELP IMPROVE PLAYER PERFORMANCE WITH THIS ANALYTICS REPORTING SUITE

Riddell is using proprietary impact metrics to deliver customers a unique depiction of a football program's daily routines.

By leveraging data, teams will create a distinct competitive and performance advantage:

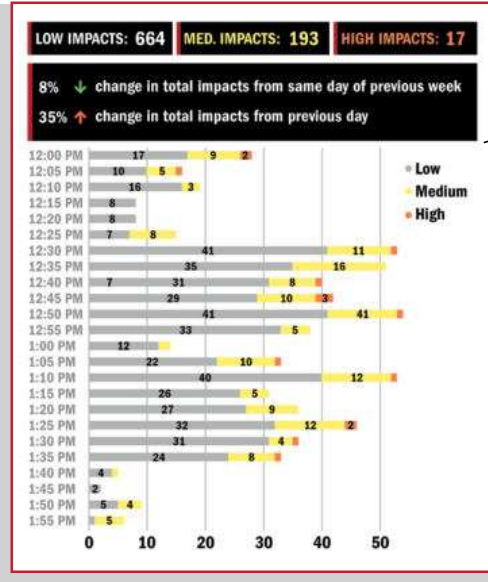

- Analyze impact data by dress type to make informed practice plan decisions.
- Analyze impact location to proactively influence player behavior, manage impact exposure, improve training technique and keep athletes on the field.
- Correlate game day performance to team and players' impact workload data.

Clear shell for artistic effect. Not available for sale or on-field use.

Riddell's InSite Analytics Team will provide automated reports and compare teams' head impact data to national norms (playing level/position-specific) and individual history.

AUTOMATED REPORTS

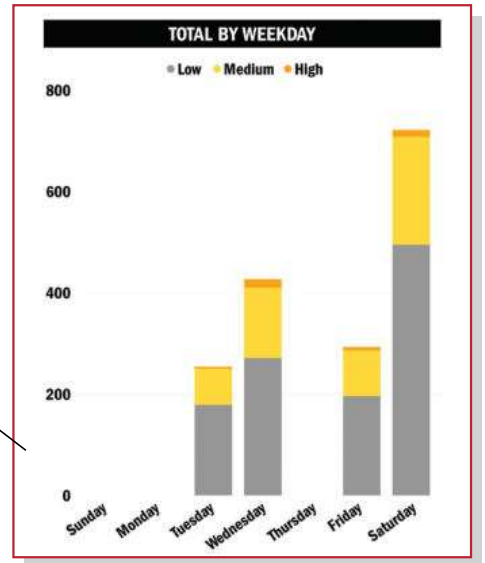

PRACTICE PLAN INTEGRATION

Import your practice plan to gain immediate insights on which drills & dress types are causing the highest head impact exposure.

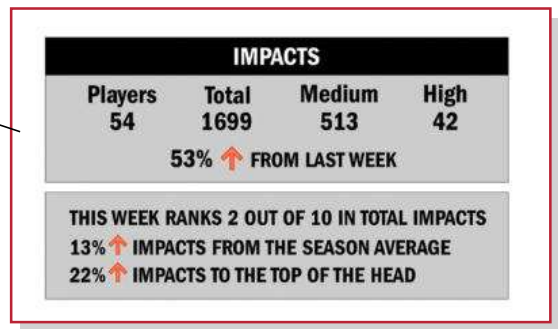

IMPACT TRENDS

Quantify your impact volume by dress type to make informed practice plan decisions.

COMPARATIVE TEAM IMPACT ANALYSIS

Summary of the team's impacts based on volume, intensity and location compared to previous week and season long average.

POSITION GROUP BREAKDOWN

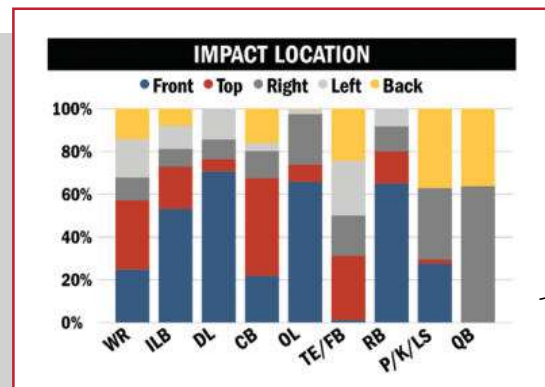

Impact volume categorized by position group & contributing players.

TOP CONTRIBUTING PLAYERS

Most substantial changes in impact volume by player compared to previous week.

TOP INCREASE				
Player Name	Position	Last Week	This Week	% Change
#88	WR	21	67	↑ 219%
#95	DL	34	98	↑ 188%
#9	ILB	16	38	↑ 138%

TOP DECREASE				
Player Name	Position	Last Week	This Week	% Change
#83	TE/FB	41	21	↓ -49%
#86	TE/FB	29	23	↓ -21%
#31	RB	54	47	↓ -13%

IMPACT LOCATION TRACKING

Position group head impact totals mapped by InSite's 5 impact zones.

SPEEDFLEX INSITE

Equipped with InSite Smart Helmet technology, the game's most recognizable helmet is designed for smarter practice, smarter play and for coaches who are in constant pursuit of both.

THE FLEX SYSTEM

Flexibility engineered into the helmet's shell, face mask and face mask attachment system with hinge clips; reduces impact force transfer to the athlete.

INSITE PLAYER UNIT

An integrated five-zone sensor pad that monitors and records nearly every head impact that occurs.

CAM-LOC™ RETENTION SYSTEM

A chin strap attachment system developed based on elite player feedback, designed for easy, efficient adjustments to help secure proper fit.

Design Shown

Paint: **Flat Scarlet, 7464**
Face Mask: **Navy Blue**
Chin Strap: **White Hard Cup**

INSITE UPGRADE

InSite Helmet	S-L	R61193
InSite Helmet	XL	R61193X
Alert Monitor	-	R63311

This helmet is certified to meet the NOCSAE Standard.

Riddell InSite alerts the sideline to significant single or multiple impacts that MAY result in a concussion. Riddell InSite is **NOT** a medical device. Riddell InSite is **NOT** a protective device and it does not protect against injuries. **Riddell InSite does not diagnose concussions and is not intended to be used as a diagnostic tool.** For proper performance, the Riddell InSite Alert Monitor must be used within fifty (50) yards of the instrumented players. Refer to the instruction manual accompanying the Alert Monitor for recommended usage.

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in CONCUSSION-BRAIN INJURY which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received MEDICAL CLEARANCE. Ignoring this warning may lead to another and more serious or fatal brain injury.

SPEEDFLEX

The first helmet designed with flexibility built into the helmet's shell, the SpeedFlex suite of products has become, by far, the most preferred helmet of the game's most elite athletes.

THE FLEX SYSTEM

Flexibility engineered into the helmet's shell, face mask and face mask attachment system with hinge clips; reduces impact force transfer to the athlete.

QUICK CHANGE LINER ATTACHMENT SYSTEM

Removable padding system designed for ease-of-use when performing helmet maintenance.

CAM-LOC™ RETENTION SYSTEM

A chin strap attachment system developed based on elite player feedback, designed for easy, efficient adjustments to help secure proper fit.

Design Shown

Paint: **Flat Royal, 7455**
Face Mask: **Royal Blue**
Chin Strap: **Royal Blue Hard Cup**

HELMET UPGRADE

For a full list of helmet upgrade options, go to **pages 38-39**.

FROM THE SIDELINES

“Riddell equipment is a vital part of our football program. When it comes to providing protective equipment that allows our players to perform at the highest level of competition, there is none better to have on your team than Riddell. They provide exceptional customer service and our reconditioned equipment returns on time and ready to wear. Riddell is an essential partner for a successful athletic program.”

Chris Yeager - Head Coach
Mountain Brook High School
Mountain Brook, AL

WARNING: NO HELMET CAN PREVENT SERIOUS HEAD OR NECK INJURIES A PLAYER MIGHT RECEIVE WHILE PARTICIPATING IN FOOTBALL. Do not use this helmet to butt, ram or spear an opposing player. This is in violation of the football rules and such use can result in severe head or neck injuries, paralysis or death to you and possible injury to your opponent. Contact in football may result in CONCUSSION-BRAIN INJURY which no helmet can prevent. Symptoms include: loss of consciousness or memory, dizziness, headache, nausea or confusion. If you have symptoms, immediately stop playing and report them to your coach, trainer and parents. Do not return to a game or practice until all symptoms are gone and you have received MEDICAL CLEARANCE. Ignoring this warning may lead to another and more serious or fatal brain injury.

OAKLEY EYE SHIELDS

As a sport performance optics brand, shields are a key product for enhancing vision for players. Oakley saw the opportunity to dramatically innovate to protect the players while elevating the game with rigorous safety testing protocols, Prizm™ Lens Technology, High Definition Optics (HDO®) and state of the art coating capabilities.

HIGH DEFINITION OPTICS®

Engineered to optimize safety and performance with Oakley High Definition Optics® (HDO®) technology, providing football players with the sharpest, most accurate field of view while maintaining clarity at all angles of vision.

PROTECTION

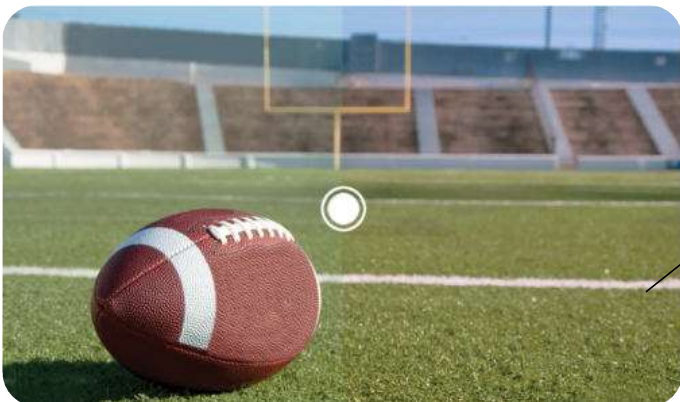

Oakley Football shields have gone through intense testing to ensure impact protection.

Design Shown

SpeedFlex with Oakley Pro Shield in Prizm Clear

EASY INSTALLATION

Oakley's shield hardware has a slimmer design with seamless twist on installation, precision stop and no tools required.

PRIZM™ LENS TECHNOLOGY

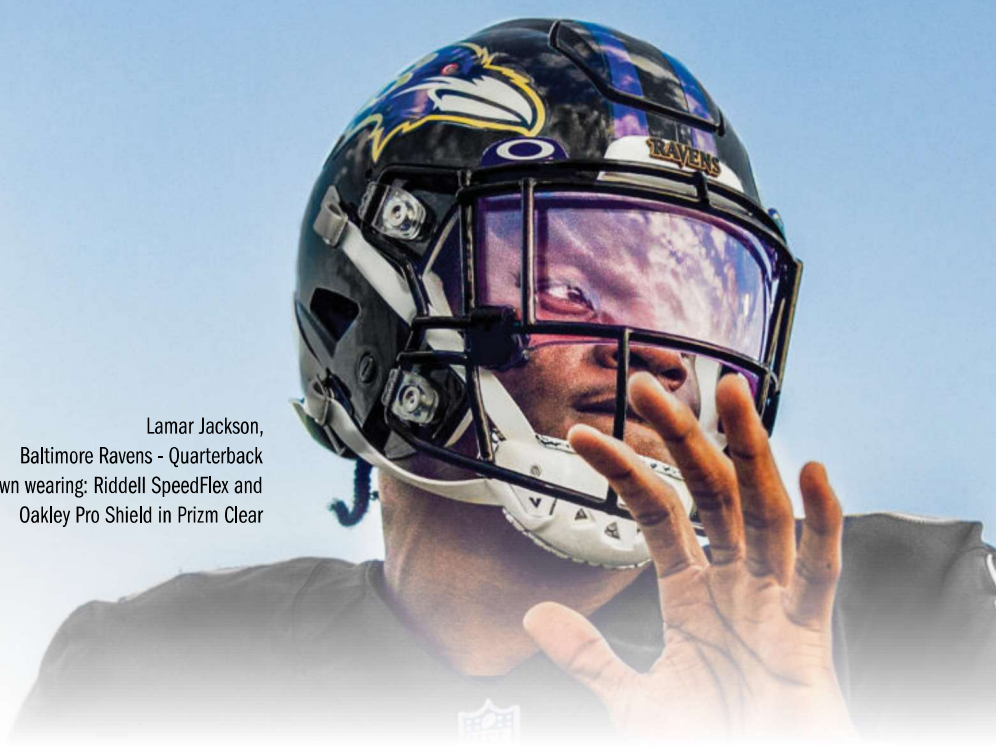

Prizm is an Oakley lens technology designed to enhance color and contrast so players can see more detail. With Prizm Clear and Prizm Gridiron, field lines stand out, the football becomes more vivid, and the players' on-field experience is enhanced.

AN OFFICIAL ON-FIELD PARTNER OF THE NFL

WE CAN BRING YOUR VISION TO LIFE.

YOUR IDEAS

DESIGNED FOR USE

ON THE FIELD

IS THERE A RIGHT TIME TO GET STARTED?

NEW HELMETS

When you're ready to get started on ordering new equipment, let us know about your design ideas.

RECONDITIONING

When your equipment is coming to us for recon is the perfect time to reimagine your helmet design.

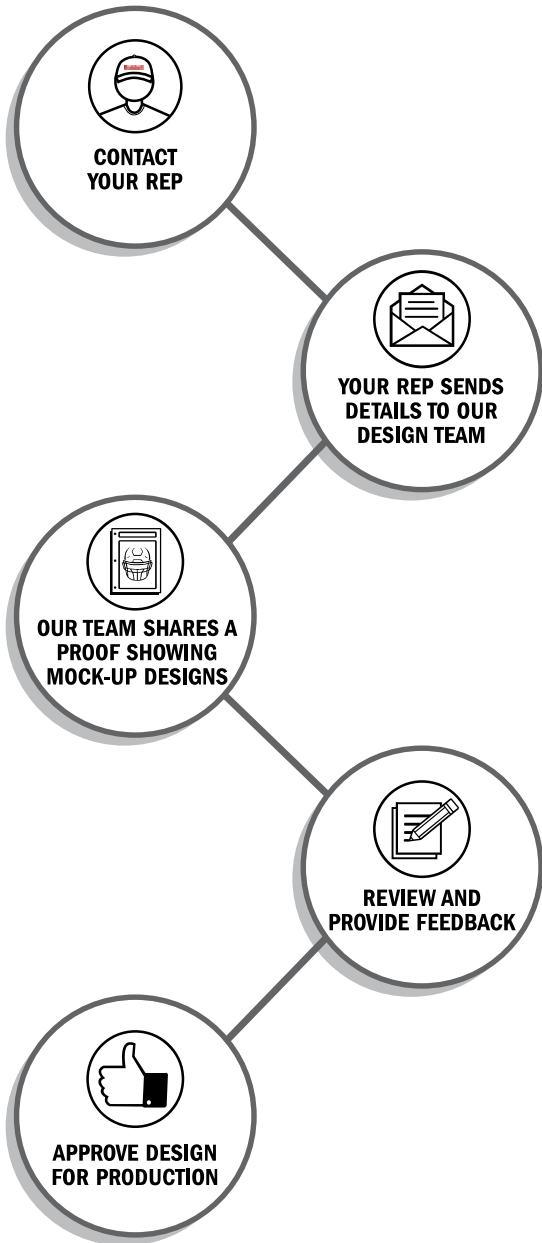

ALTERNATE

When you're considering an alternate look for a commemorative game, we are ready to help.

WE CAN BEGIN WORKING WHENEVER INSPIRATION STRIKES.

HOW DOES IT WORK?

SAMPLE PROOF

WHAT DO WE NEED TO KNOW?

- What is the purpose of the helmet design?
- What inspired your idea? Provide any photos or references.
- Do you have any specific direction or requests for the design?
- Provide any requested specifics of the helmet build, including shell color, paint finish, face mask color and chin strap details.
- Should any logos be included? Provide the file to be used.

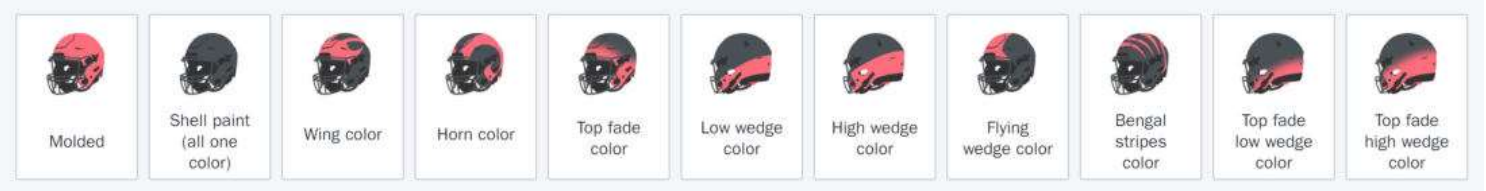

DON'T FORGET THIS IS ALL ZERO COST TO YOU!

Riddell wti

Innovative finishes and decoration for the ultimate helmet design. Customize with combinations of finishes and patterns to create a unique design.

RECONDITIONING

As the world's largest reconditioner of football equipment, Riddell is the expert in keeping your equipment game ready. Reconditioning - including cleaning, sanitizing and recertifying - is essential for prolonging the life of your equipment.

SANITIZE

Riddell will clean, sanitize, recondition and recertify your equipment. Take an extra step to sanitize with an O-Zone add-on.

NOT INTENDED FOR THE PREVENTION OF COVID-19

NOCSAE CERTIFIED

Football helmets are now required to be recertified minimally every other year in accordance with manufacturer's warranty validation requirements to remain NOCSAE certified.

BEFORE

AFTER

PERFORMANCE

Annual reconditioning ensures equipment continues to meet performance standards.

FROM THE SIDELINES

“ Riddell is responsive and quick to answer, while also completing high-quality work. When we ship out our equipment for reconditioning, we always receive it back in a timely manner. ”

Mike (Mac) McEachern - Head Coach
Huffman-Hargrave High School
Huffman, TX

WHAT IS THE RECONDITIONING PROCESS?

Face masks, hardware and decals are removed.

Helmets are cleaned and sanitized by hot pressurized water and detergent and then rinsed.

Helmets are hand-inspected for hairline cracks and any other defects.

Interior parts are replaced if necessary. (Additional fee may apply)

For painted helmets, new paint is applied. Paint color changes can also be made at this time.

Warnings, other labels and a recertification seal are applied.

Face masks and hardware are reattached.

Helmets are returned reconditioned and recertified, ready for next season.

CONTACT YOUR REP

Contact the Riddell Sales Rep in your area for further details.

YOUTUBE CHANNEL

Visit [youtube.com/riddellsports](https://www.youtube.com/riddellsports) for videos about our full reconditioning process.

Riddell reserves the right to reject any equipment obsolete, outdated, not meeting the required standards or not meeting the expense of repair.

WARNING: Football is a dangerous sport which may result in serious injuries or even death. Although our equipment is designed to help reduce the risk of such injuries, there is no guarantee that any injury will be prevented by the use of this equipment.

TERMINOLOGY

INTEGRATED RIPKORD™ TECHNOLOGY

The RipKord shoulder pad removal system utilizes a release mechanism that is strategically integrated into the shoulder pad that allows for quick and easy removal and access to the player.

STAC SHOULDER SYSTEM

Patented designed cap and epaulet system provides protection to the AC joint while allowing for maximum mobility.

REMOVABLE/ADJUSTABLE DELTOIDS

Contoured closed cell foam piece that protects the deltoid muscle during contact.

SWIM CUT ARCHES

Strategically designed arch pattern used to optimize an athlete's arm motion.

BIOTHANE® STAC STRAPS & BELTS

Strong, flexible Biothane® coated webbing.

FLAT PAD DESIGN

Shoulder pad design that sits low across the player's shoulder, minimizing interference with the rotational range of the helmet. Rigid belts route forces away from the point of impact by converting the entire arch into a large-scale, shock absorbing system.

STAINLESS STEEL HARDWARE

Rust-resistant hardware used to attach components of the shoulder to add structure and rigidity to the pad.

AIR MANAGEMENT LINER

Shoulder pad liner construction that attenuates impact energy on a cushion of air within semi-sealed chambers. Energy dispersion occurs through spreading the impact forces within a large volume of air slowly released from the liner at a controlled rate.

REMOVABLE / ADJUSTABLE BODIES

Ability to shift pads to meet player's preference.

CORRUGATED ARCHES & EPAULETS

Engineered design element which raises areas of the outer surface to create a stronger structure, allowing the component to be thinner for weight reduction.

INTEGRATED DELTOID PADS

Open cell foam piece that protects the deltoid muscle during contact.

PVC BELTS

Adjustable belts secure the shoulder pad to maintain protective placement for a proper fit.

Z-FIT BELTING SYSTEM

Attachment system using high-strength nylon clips to increase the ease of putting on and securing a shoulder pad.

QUEST

SHOULDER PAD FITTING GUIDE

Riddell
PROTECT AND PERFORM

MEASURE CHEST

- Wrap measuring tape around upper torso
- Record measurements

MEASURE SHOULDERS

- Stretch tape over contour of shoulders (as shown above)
- Measure from tip of left humerus to tip of right humerus
- Record measurements

SELECT PADS & PUT ON PADS

SELECT PADS:

- Identify player position and select corresponding Riddell® pad style
- Use the Riddell® pad chart below to select proper pad size

PUT ON PADS:

- Bring pads down over head
- Be careful of eyes and nose

SECURE STRAPS

- Buckle belts and connect elastic straps (if applicable)
- Establish tight fit in chest and back area

CHECK FOR PROPER FIT

- Ensure there is no pinching in collar.
- Adjust as needed.

ENSURE COVERAGE IN FRONT

- Pads should cover sternum
- Pads should cover front-upper shoulders

ENSURE COVERAGE IN BACK

- Confirm coverage
- Confirm optimal range of motion

FLAT PADS: Professional / College / Varsity

CUSTOM POWER® CPK

Designed with the modern athlete in mind, the CPK is a low-profile, lightweight pad that is customizable according to your specifications with removable deltoids, channels/centers, bodies and available color combinations.

INTEGRATED RIPKORD™ TECHNOLOGY

The RipKord shoulder pad removal system utilizes a release mechanism that is strategically integrated into the shoulder pad that allows for quick and easy removal and access to the player.

STAC SHOULDER SYSTEM

Patented designed cap and epaulet system provides protection to the AC joint while allowing for maximum mobility.

REMOVABLE/ADJUSTABLE DELTOIDS

Contoured closed cell foam piece that protects the deltoid muscle during contact.

FROM THE SIDELINES

“ Without doubt the first meeting with my Riddell rep in 1994 was instrumental in the success and security of our program as we went from an equipment room full of used and outdated equipment to state of the art equipment from Riddell. ”

Harold Turbide - Head Coach
Fernand Lefebvre High School
Sorel Tracy, Québec, Canada

*Shoulder Width defined as the distance between the tips of the humerus bones.

WARNING: Football is a dangerous sport which may result in serious injuries or even death. Although our equipment is designed to help reduce the risk of such injuries, there is no guarantee that any injury will be prevented by the use of this equipment.

PHENOM

This all-purpose varsity shoulder pad comes standard with a removable Y-Belt connector - a rigid strap that connects the arch to the belt to better pull the shoulder pad around a player's body.

AIR MANAGEMENT LINER

Shoulder pad liner construction that attenuates impact energy on a cushion of air within semi-sealed chambers. Energy dispersion occurs through spreading the impact forces within a large volume of air slowly released from the liner at a controlled rate.

FLAT PAD DESIGN

Shoulder pad design that sits low across the player's shoulder, minimizing interference with the rotational range of the helmet. Rigid belts route forces away from the point of impact by converting the entire arch into a large-scale, shock absorbing system.

Product Shown
Model: PHENOM AP

REMOVABLE / ADJUSTABLE BODIES

Ability to shift pads to meet player's preference.

SHOULDER PAD ACCESSORIES

See page 94-96 for compatible accessories.

RIVAL

Equipped with corrugated arches, integrated deltoid pads, flat pad design, removable liners and corrugated epaulets. This is a great all-purpose pad for varsity athletes.

CORRUGATED ARCHES & EPAULETS

Engineered design element which raises areas of the outer surface to create a stronger structure, allowing the component to be thinner for weight reduction.

FLAT PAD DESIGN

Shoulder pad design that sits low across the player's shoulder, minimizing interference with the rotational range of the helmet. Rigid belts route forces away from the point of impact by converting the entire arch into a large-scale, shock absorbing system.

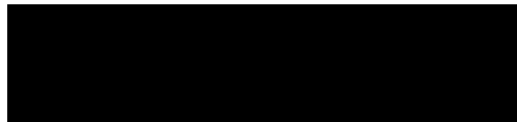

INTEGRATED DELTOID PADS

Open cell foam piece that protects the deltoid muscle during contact.

FROM THE SIDELINES

“After coaching TackleBar football for four years, I’m convinced it is the best way to introduce contact sports to young athletes. I recommend TackleBar for kids and parents looking for safer fun on the gridiron.”

Logan U’u - Head Coach
St. Paul Academy Spartans
St. Paul, MN

Riddell | TACKLEBAR

TackleBar is an innovative alternative for varsity training and on-field modified youth football, helping athletes learn to block, track and engage opponents with proper form and technique without taking players to the ground.

And now, as part of the USA Football Football Development Model, TackleBar helps create an ideal bridge game to full contact using traditional equipment.

FUNDAMENTAL SKILL DEVELOPMENT FOR TODAY’S GAME

- Teaches proper tackling and technique
- Creates an ideal transition between flag and tackle football for youth athletes
- Focuses on fundamentals without taking players to the ground
- Applications in varsity and youth practice and youth games
- Teaches game speed tackling while managing live contact
- Increases participation, eases player and parent concern

FROM THE SIDELINES

“We do very little live contact throughout the season and TackleBar has helped to make that possible. We feel it is a much safer and more effective way to tackle while still stressing the physical part of the game.”

Russ Hinrichs - Assistant Coach
Alexandria High School
Alexandria, MN

ELITE PERFORMANCE TECHNICAL TRAINING EQUIPMENT

This innovative tackle system has changed the way players and coaches prepare and train. It emphasizes specific tackling techniques and skill development relating to all the tackles a player may be faced with during a game. The goal is to create the player who is a 'Multi-Purpose Tackler'.

The equipment is designed at different heights and weights which creates varying degrees of difficulty depending on the training aid being used. There are three tackle levels:

Level 1 (L1)
Ankle to Knee

Level 2 (L2)
Knee to Hip

Level 3 (L3)
Hip to Pec

These training aids allow the player to work continually throughout the season on key technique and skills development, while taking away the 'player on player' contact.

WARNING: Football is a dangerous sport which may result in serious injuries or even death. Although our equipment is designed to help reduce the risk of such injuries, there is no guarantee that any injury will be prevented by the use of this equipment.

GSI PERFORMANCE

LEVELS BAGS

- Designed to: isolate accurate body height and the immediate tackle follow-up technique of wrap, clamp and tackler re-shape in and out of the tackle action
- For the Player: helps train accurate body height at the three tackle levels, arm wrap, reaction speed & balance
- Key Coaching Point: player to make an accurate initial contact with the bag at the height they are training on, strong wrap and clamp and leg drive to finish the tackle

GRAPPLE BAGS

- Designed to: work tackler accuracy at the three different tackle height levels and specifically isolate the tackling action of connection and the ability to follow up specifically with arm wrap and clamp movements
- For the Player: using this piece of equipment helps train accurate body height, arm wrap and clamp, grip-work, reaction speed & balance
- Key Coaching Point: vary approaches regarding angles and speed from players, with emphasis of the player to hit square on the front cylinder

WRAP & GRIP BAGS

- Designed to: isolate accurate body height, tackle accuracy and the immediate tackle follow-up technique of arm wrap and clamp, strong grip and head placement, body shape and finishing off the tackle in a dominant position
- For the Player: fight for strong hand placement on the specially designed grip bars after the initial wrap and clamp to work accurately throughout the tackle from start to finish
- Key Coaching Point: get your player to approach the bag from different angles and speeds, the coach can also drag the bag so the player is tracking a moving target

WRAP & ROLL

Designed to: help achieve and maintain accurate L1 body height, strong arm wrap, dynamic roll, reaction speed & balance

DIP & RISE

Designed to: isolate the skill of the tackler dropping his/her body height as they approach the tackle

THE HAMMER

Designed to: isolate the simulation of the "cut-block" technique within a contact drill

WRAP & GRIP 360

Designed to: help train accurate tackle entry height, arm wrap and clamp and grip work

SLEDS & TACKLERS

RAE CROWTHER CO.
ATHLETIC TRAINING EQUIPMENT

ITEM NAME	DESCRIPTION	ITEM
A Classic Two Man Pan Sled	The sled of the pros. The Classic Two Man Sled (A.K.A. the Pan Sled) is the king of teaching the body mechanics of blow delivery. All of the fundamentals are encompassed in this one sled.	MC2R
B S Pop Tackler	The Pop Up frame allows more reps in practice, as the player or coach does not need to upright the sled. The sled pops up fast! Simply tackle to the ground and let the sled return upright in seconds, ready for the next rep.	SPUT
C Slingball	The Sling-Ball is an affordable new tackling tool that promotes "Rip Tackling". The Sling-Ball is a large 36" diameter round ball. The tube is attached to a small but heavy base. There is no metal in the base so it won't hurt a player if they land on it.	SLB1
D Shockwave	Where strength collides with football: gain thousands of football specific repetitions. Increase the quality of explosive strength that enables athletes to stay on blocks or make tackles.	SWV7-E

NOTE: Heavy items; additional freight changes will apply for blocking shield, blocking dummy and sled replacement pads.

WARNING: Football is a dangerous sport which may result in serious injuries or even death. Although our equipment is designed to help reduce the risk of such injuries, there is no guarantee that any injury will be prevented by the use of this equipment.

OAKLEY EYEWEAR

Since 1975, Oakley has developed iconic products across multiple categories that blend science with art. Designed in the USA.

PRIZM LENS TECHNOLOGY

PRIZM™ is an Oakley Lens Technology designed to enhance color and contrast so you can see more detail.

HIGH DEFINITION OPTICS® AND HDPOLARIZED

High Definition Optics (HDO) eliminates distortion common in high wrap eyewear, providing clearer, sharper and more accurate vision. HDPolarized lenses use an injection molded single-layered lens for glare protection with uncompromised clarity.

THE BEST LENS ON THE PLANET

Oakley sunglass lenses are made from Plutonite®, Oakley's high purity optical grade polycarbonate for comfort, clarity and protection. Oakley Iridium® lens coatings are designed to tune color and transmission while giving a unique look.

UNIFORMS

HERO

NEW! Form fitting jerseys with a combination of HP Pro Flex and Pro Stepline Mesh fabrics with unique oversized numbers offer an eye-catching combination.

OVERSIZED FRONT & BACK NUMBERS

Numbers are made of Stretch Tackle Twill with TPU accents in Vegas Gold, Silver Gray or Iridescent and must have a contrasting outline color to be NFHS legal.

COLOR ACCENTS

Choose a color out of 22 options for the arm cuffs to show your team's colors.

FORM FITTING DESIGN

Using Pro Stepline Mesh and HP Pro Flex offers you a form fitting cut throughout the body, shoulders and sleeves for a fit that today's athlete requests with outstanding range of motion and flexibility.

FABRICS

HP PRO FLEX

Four way stretch compression fit for optimal performance, comfort and durability.

PRO STEPLINE MESH

- 88% polyester 12% spandex
- Weight 11.8 oz.

HIGH PERFORMANCE SPEED ELITE & SPEED JERSEYS & PANTS

Form fitting jerseys with a combination of Pro Flex and Pro Stretch Mesh fabric for full range of motion with all decorations included at one price.

MESH BODY VENTS

Pro Stretch Mesh inserts located on sides, back and chest area for increased ventilation.

FROM THE SIDELINES

“We use Riddell for all of our equipment and uniform needs. Their products’ performance and appearance sold us, and the service and support will keep us with Riddell for years to come. There are so many components that go into a successful program, and Riddell is a big part of ours!”

Justin Groves - Head Coach
Benton High School
Benton, IL

PRO FLEX AND PRO STRETCH MESH

The mixture of these two fabrics will ensure the jersey’s fit for the athlete, optimal stretch and breathability.

PRO FLEX PANT

Available with the option of elastic waist with drawstring or full Pro Flex belt with cover. Thigh and knee pockets included. Solid or sublimated Pro Stretch Mesh side inserts for ventilation on selected styles.

HIGH PERFORMANCE REVERSIBLE PERMATEK™ JERSEYS & PANTS

Home and away in one: Fully sublimated reversible uniforms using Riddell's process of unlimited customizations and all decorations included at one price.

1-PLY STRETCH MESH BODY & SLEEVES

Lightweight but durable fabric allows us to sublimates on each side of the material so you can have two for the weight of one.

SUBLIMATED PANTS

Elastic waistband with drawstring and knee pocket (no thigh pocket) on all traditional pant styles. Integrated pants include all pads and full belt.

DECORATIONS

Completely decorated by using our sublimation process for the complete jersey and/or pant. All colors, numbers, names, logos and inserts are dyed directly into the fabric so you will never experience any peeling or cracking of your uniforms.
